EDUCATION

Cornell University, College of Arts and Sciences

Ithaca, NY

Bachelor of Arts in Information Science, Systems and Technology (ISST) | Concentration: User Experience

May 2026

UCLA Extension | COM SCI X 450.1 Introduction to Data Science

June 2025-September 2025

WORK EXPERIENCE

Law Office of Alexander P. Hartnett

New York, NY

Paralegal

June 2024-July 2026

- Researched and implemented new technology tools, providing one-on-one training to improve attorney adoption
- Provided technical support and hardware/software troubleshooting for office computers, networks, and printers
- Organized unstructured data across 200+ case records into structured Excel spreadsheets for seamless attorney use
- Maintained the firm's electronic filing system, ensuring data organization and seamless cross-team case tracking
- Utilized Westlaw and AI-assisted tools to support legal research and improve efficiency in document-related tasks

Farm to People

Brooklyn, NY

Data Intern

June 2024-August 2024

- Managed and updated product and customer data for over 300+ products and 100+ customers using ERP software
- Maintained detailed Excel reports and ensured data accuracy across inventory, sales, and procurement records
- Presented insights from market research that led to a 15% improvement in procurement strategies

PROJECT AND PROFESSIONAL DEVELOPMENT

Valora AI Image Generator

New York, NY

Creator and Developer

May 2026

- Built an AI image generator that converts user-written prompts into custom visuals using the OpenAI API
- Developed a secure Netlify serverless function to handle API requests and protect the OpenAI API key
- Implemented Cloudflare Turnstile with server-side verification to enhance bot protection and secure API requests.

FitMatch

Ithaca, NY

Co-Founder

January 2025-May 2025

- Brainstormed 20 design concepts for a product aimed at personalizing shopping experiences for young women
- Conducted user research through ethnography, interviews, and co-design workshops to identify key pain points
- Created a Figma prototype using real-world photos and community feedback to improve online shopping decisions
- Presented the finished product and its future advancements to 100+ attendees at a public product design convention

Underrepresented Minorities in Computing (URMC)

Ithaca, NY

Academic Chair

September 2022-2025

- Organized monthly professional development workshops and career events for a community of 150+ members
- Mentored peers on navigating academic and tech industry pathways through the M&M program
- Managed 10+ class Slack channels to facilitate course guidance and streamline peer-to-peer technical support

CERTIFICATIONS

- **TechSmith Camtasia Certified Educator** - Video & E-Learning Content Production
